1.3. RFID Type Master Maintenance

➤ Listing Page

RFID Type Master Maintenance

The screenshot shows the 'RFID Type Master Maintenance' interface. It includes a 'Basic Search' section with a dropdown menu (2), a text input field (3), and 'Submit' and 'Advance Search' buttons. Below the search fields are checkboxes for 'Show Deleted Records' (4) and 'Show All Records' (5). An 'Add Item' button is located at the top right (1). The main table lists RFID types with columns for 'RFID Type', 'Remarks', and 'Audit Trail'. Two records are shown: 'Iron Tag' (6) with remarks 'Mainly from metal machine spare part' (7), and 'PVC Card' with remarks 'Can use in non-metal material'. Each record has a delete icon (6) and a 'View' link. At the bottom, there is an 'Export To Excel' button (8) and a status bar showing 'Total of 2 records found'.

Steps:

1. Click on Add Button to add record.
2. Click on the optional box to choose the category to search.
3. Fill in the RFID Type (text box) that user wishes to search. Click on Submit Button to complete the search. User can click on Advance Search Button for more detailed search function.
4. Click on Show Deleted Records (panel box) if user wishes to revise deleted record.
5. Click on Show All Records (panel box) if user wishes to revise all record. (including deleted record)
6. Click on Icon to delete record.
7. List and show the record that has been added. Click on any record to revise the detailed information.
8. Click on Export To Excel Button to generate all record into excel form.

➤ Add Function

RFID Type Master Maintenance - Add

The screenshot shows the 'RFID Type Master Maintenance - Add' form. It has two text input fields: '* RFID Type :' (1) containing 'Access Card' and 'Remarks :' containing 'Purpose For Taking Attendance Use'. Below the fields are three buttons: 'Submit' (2), 'Reset' (3), and 'Cancel' (4).

Steps:

1. Fill in the RFID Type (text box) and Remarks (text box).
2. Click on Submit Button to add record into database.
3. Click on Reset Button to reset filling.
4. Click on Cancel Button back to RFID Type Master Maintenance Listing Page.
